CYBERSECURITY IN HEALTHCARE

IN PARTNERSHIP WITH

SAVE THE DATE

Tuesday 30 June 2020

14:00 - 15:30 BRUSSELS TIME

As the digitisation of health and care progresses, the number of connected digital health technologies is increasing. This is inevitably accompanied by a growing number of cybersecurity risks. Cybersecurity is a shared responsibility. It must be clear to all parties involved that it takes organisational measures to ensure security, which can then be supported by product technology.

This webinar will be an opportunity to understand the latest status on legislative developments and explore the concrete meaning and practical implementation of 'shared responsibilities', including the need for collaboration, communication and information between manufacturers and healthcare delivery organisations.

SPEAKERS

Peter EBERL
(DG CNECT Deputy Head of Unit Cybersecurity and Digital Privacy)

Athanasios DROUGKAS
(ENISA Network and Information Security Expert)

Paul GARASSUS (UEHP President)

Ben KOKX (COCIR Cybersecurity Focus Group Chair)

Nicole DENJOY (COCIR Secretary General)

WHO SHOULD ATTEND?

Anybody responsible for implementing cybersecurity in the healthcare sector, including cybersecurity experts in medical device

companies, hospitals and other healthcare providers, as well as IT service providers.

WHY SHOULD YOU ATTEND?

- To **learn more** about the legislative and regulatory landscape for cybersecurity in healthcare.
- To **gain knowledge** about relevant European & international guidance and standardisation efforts.
- To **understand better** how the requirements and practices of manufacturers and healthcare delivery organisations are complementary and reinforce each other.

DRAFT AGENDA

14:00 - 14:05	Welcome and Introduction (Nicole DENJOY)
14:05 - 14:20	Overview of applicable cybersecurity legislation in Europe (Peter EBERL)
14:20 - 14:35	Update on the implementation of the NIS Directive (Athanasios DROUGKAS)
14:35 - 14:50	Shared responsibility – the manufacturer's perspective (Ben KOKX)
14:50 - 15:10	Shared responsibility – the hospital's perspective (Paul GARASSUS)
15:10 - 15:25	Questions & Answers with the audience
15:25 - 15:30	Conclusions and next steps
